POLITECNICO DI MILANO

PandA/bambu Tutorial

Virtual machine setup

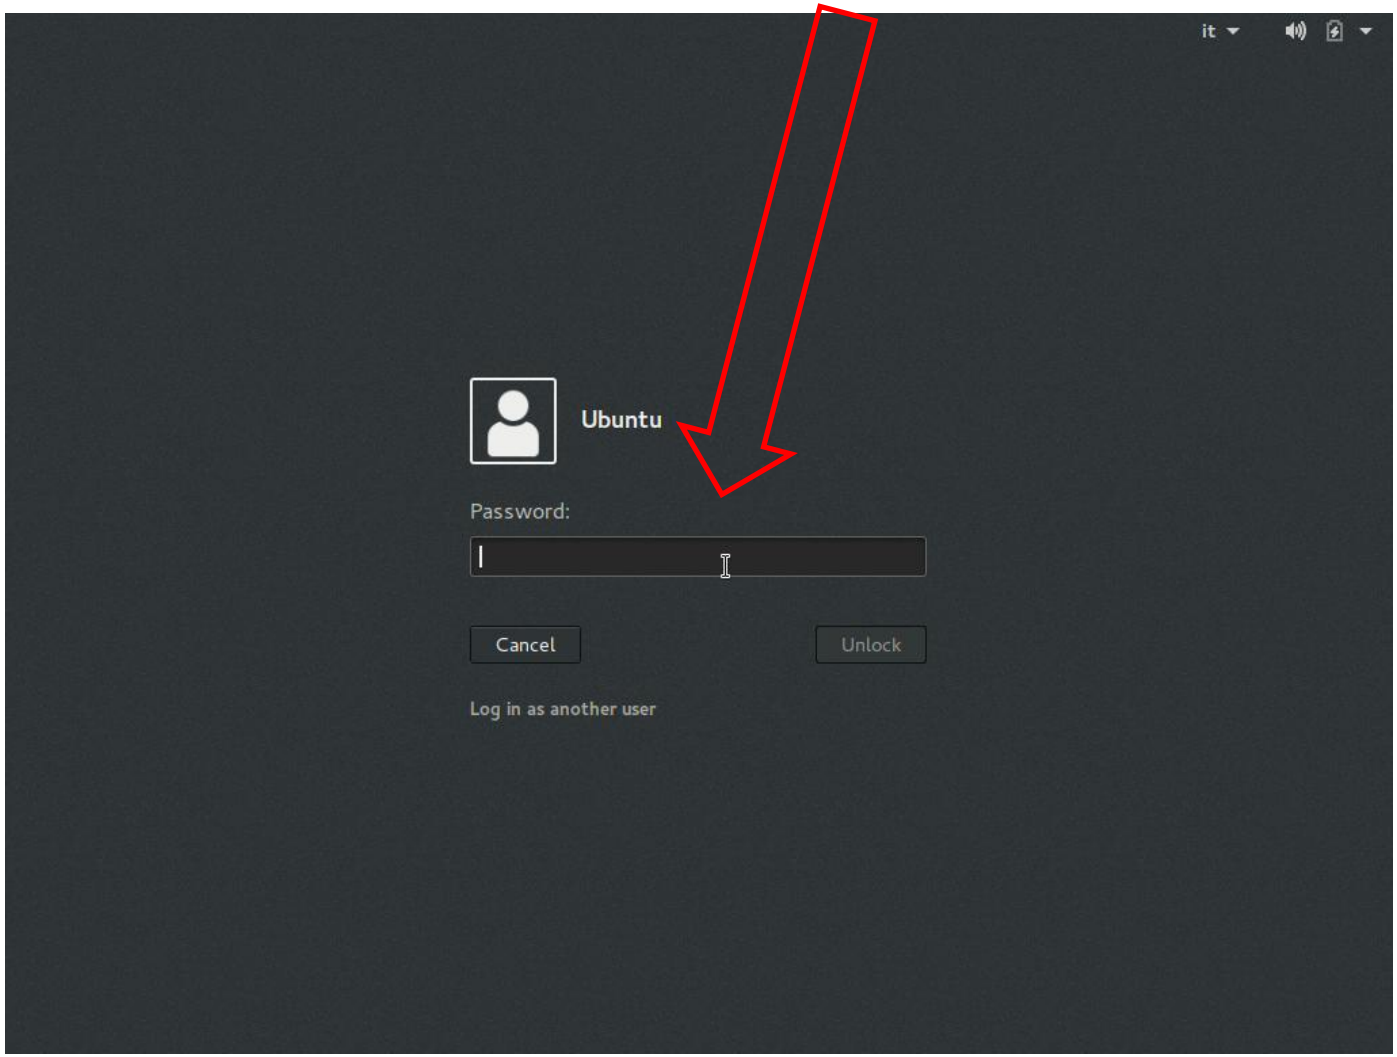
Fabrizio Ferrandi <fabrizio.ferrandi@polimi.it >
Politecnico di Milano

VirtualMachine download&import

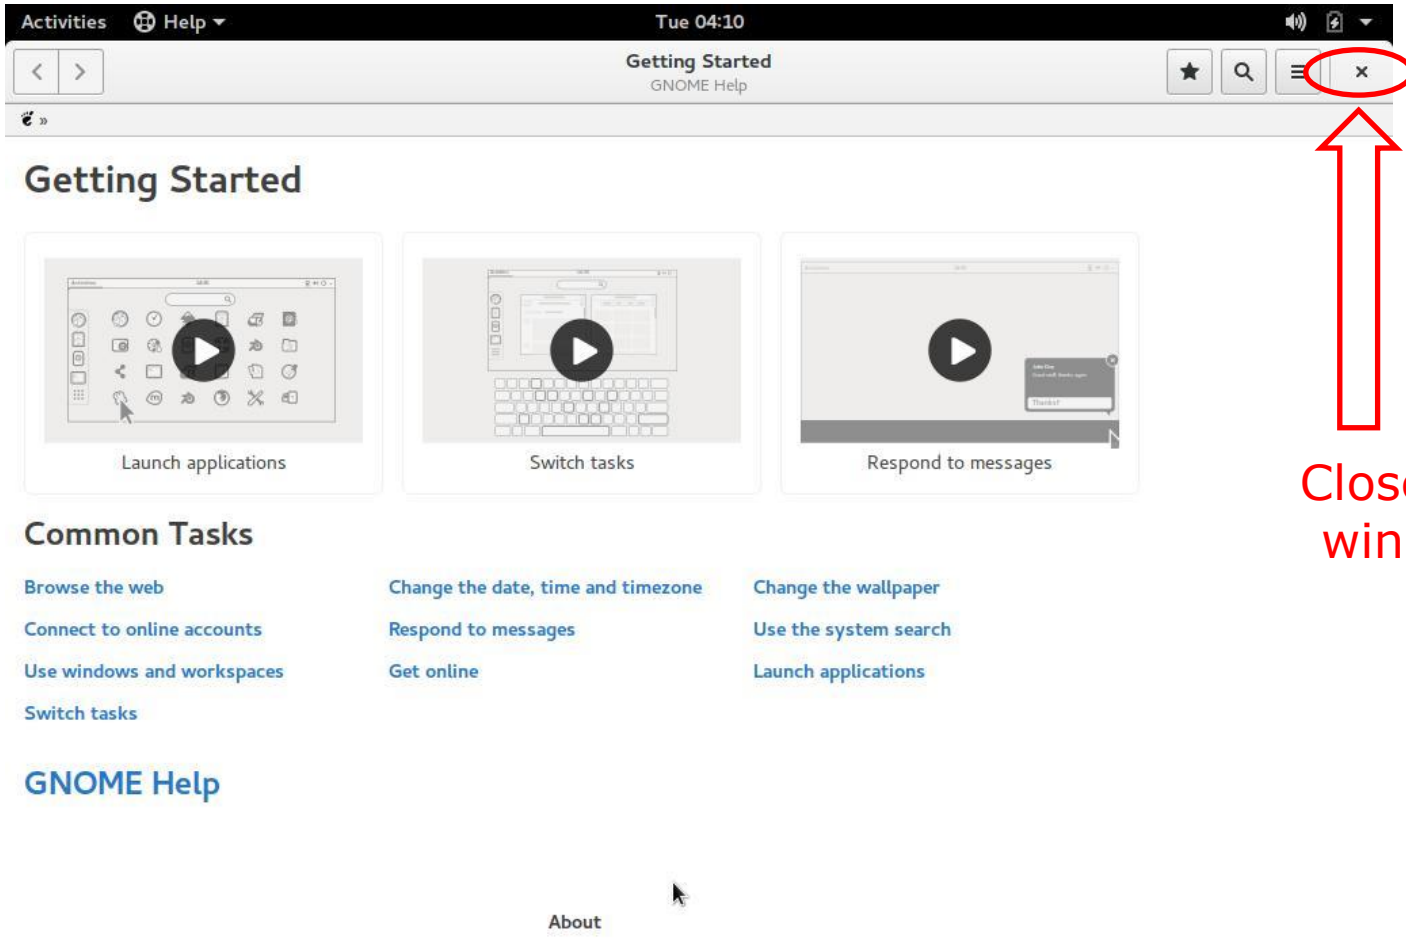
- There are two .ova files. One for 32bit operating systems and another one for 64bit operating systems.
- Once downloaded you can import the virtual machine by clicking on the VirtualBox Manager menu:
  - File
    - Import appliance…

Login

Type as a password: password



Starting screen

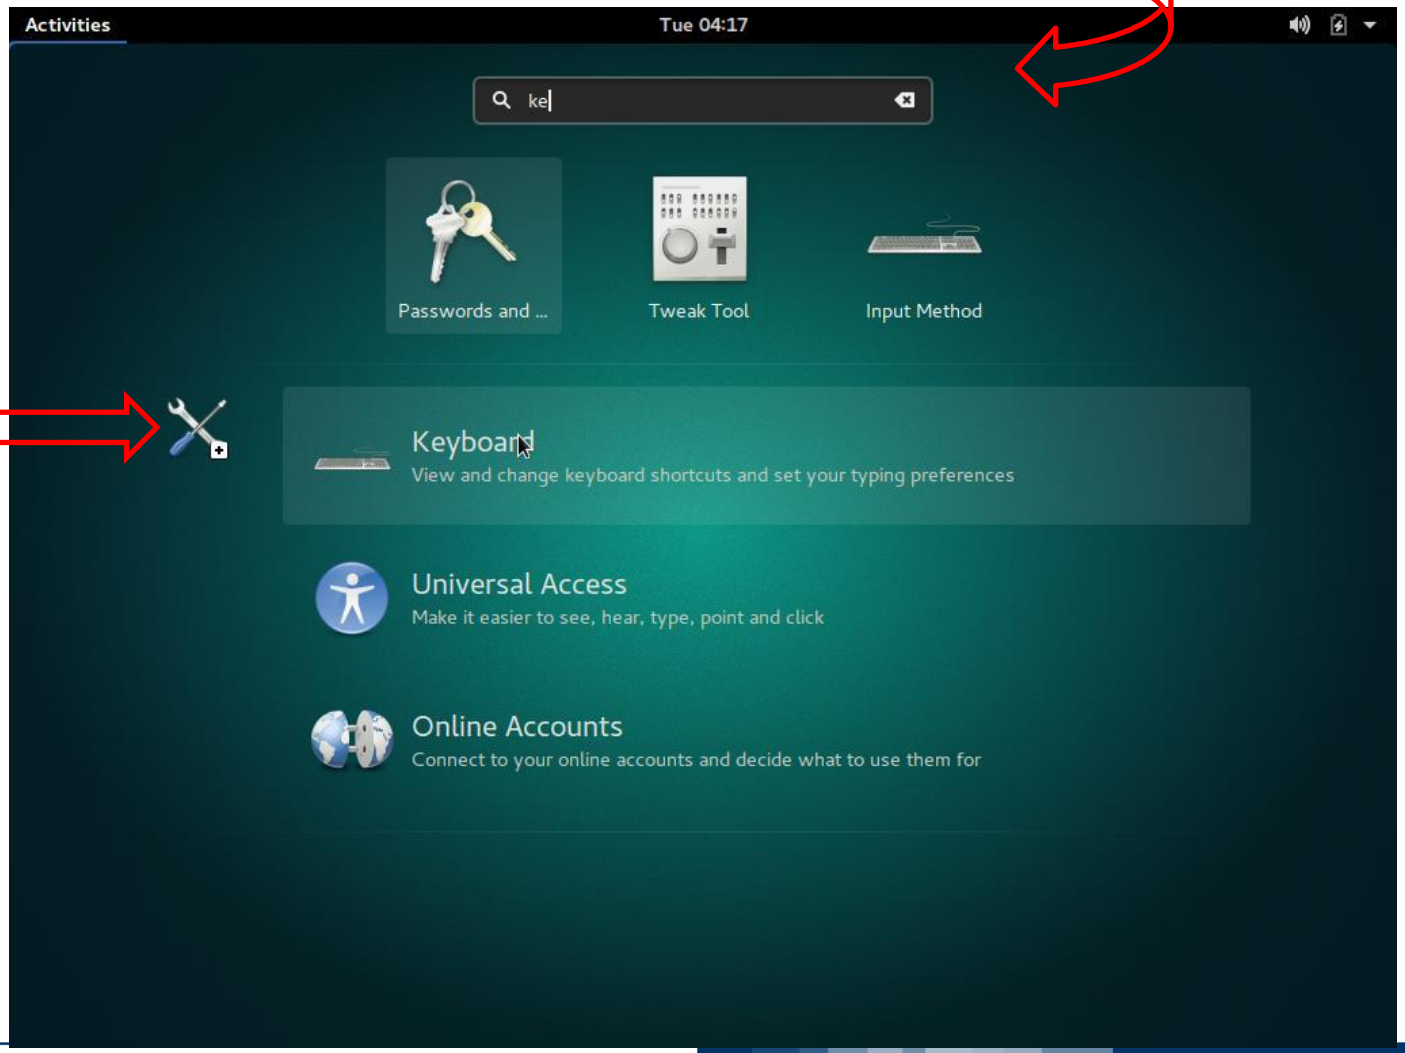


Close the window

Configure the keyboard

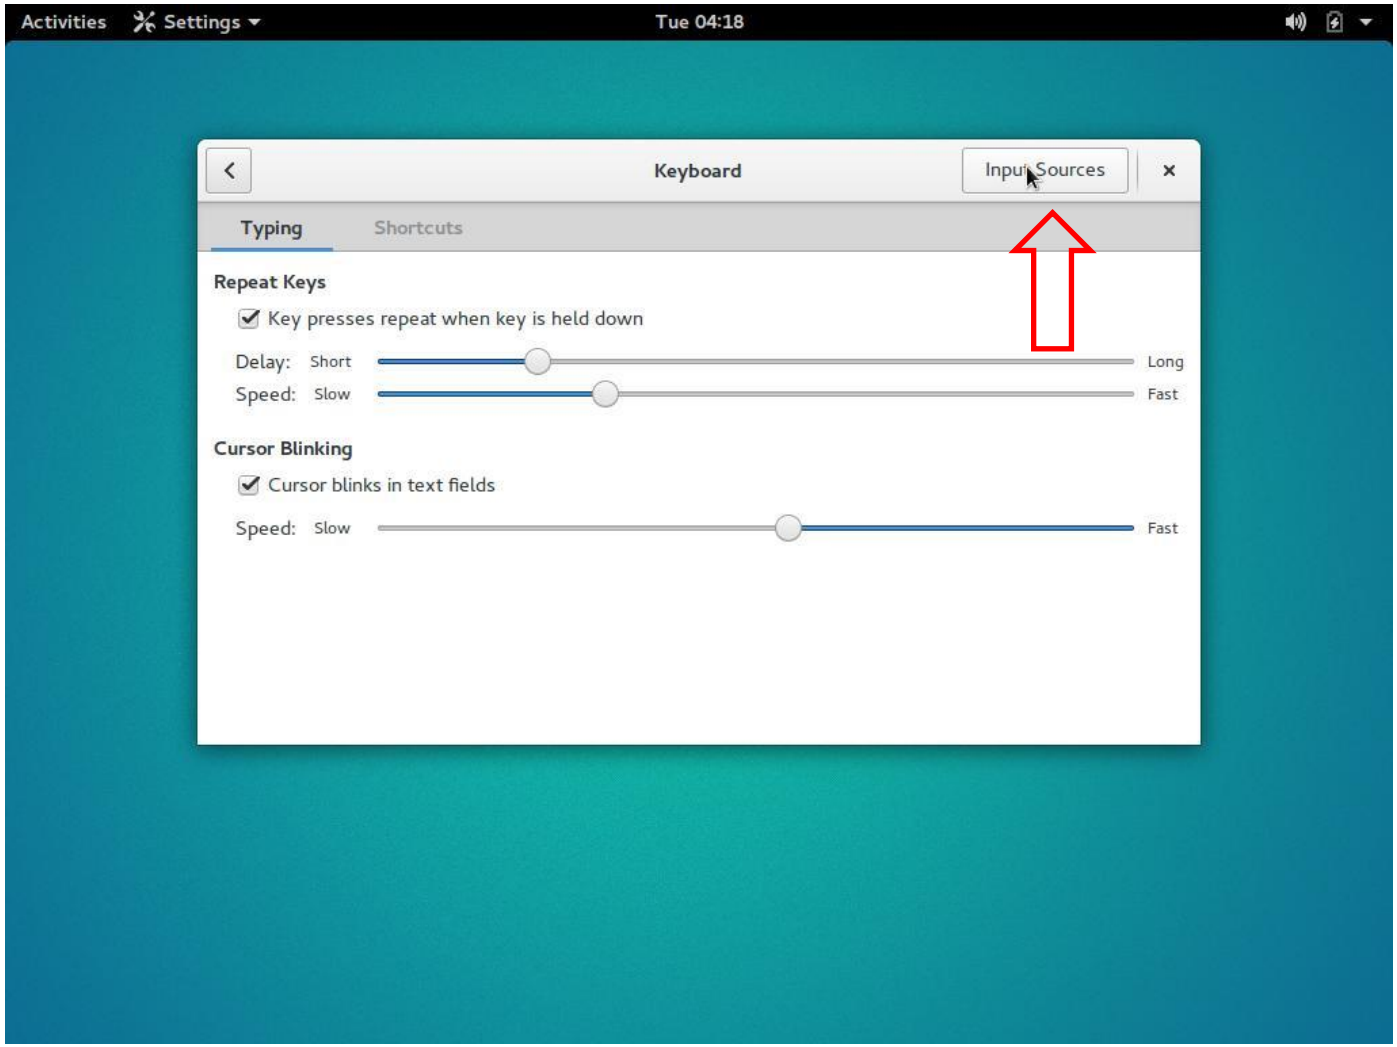
1) Click on activities

2) Search for "keyboard"

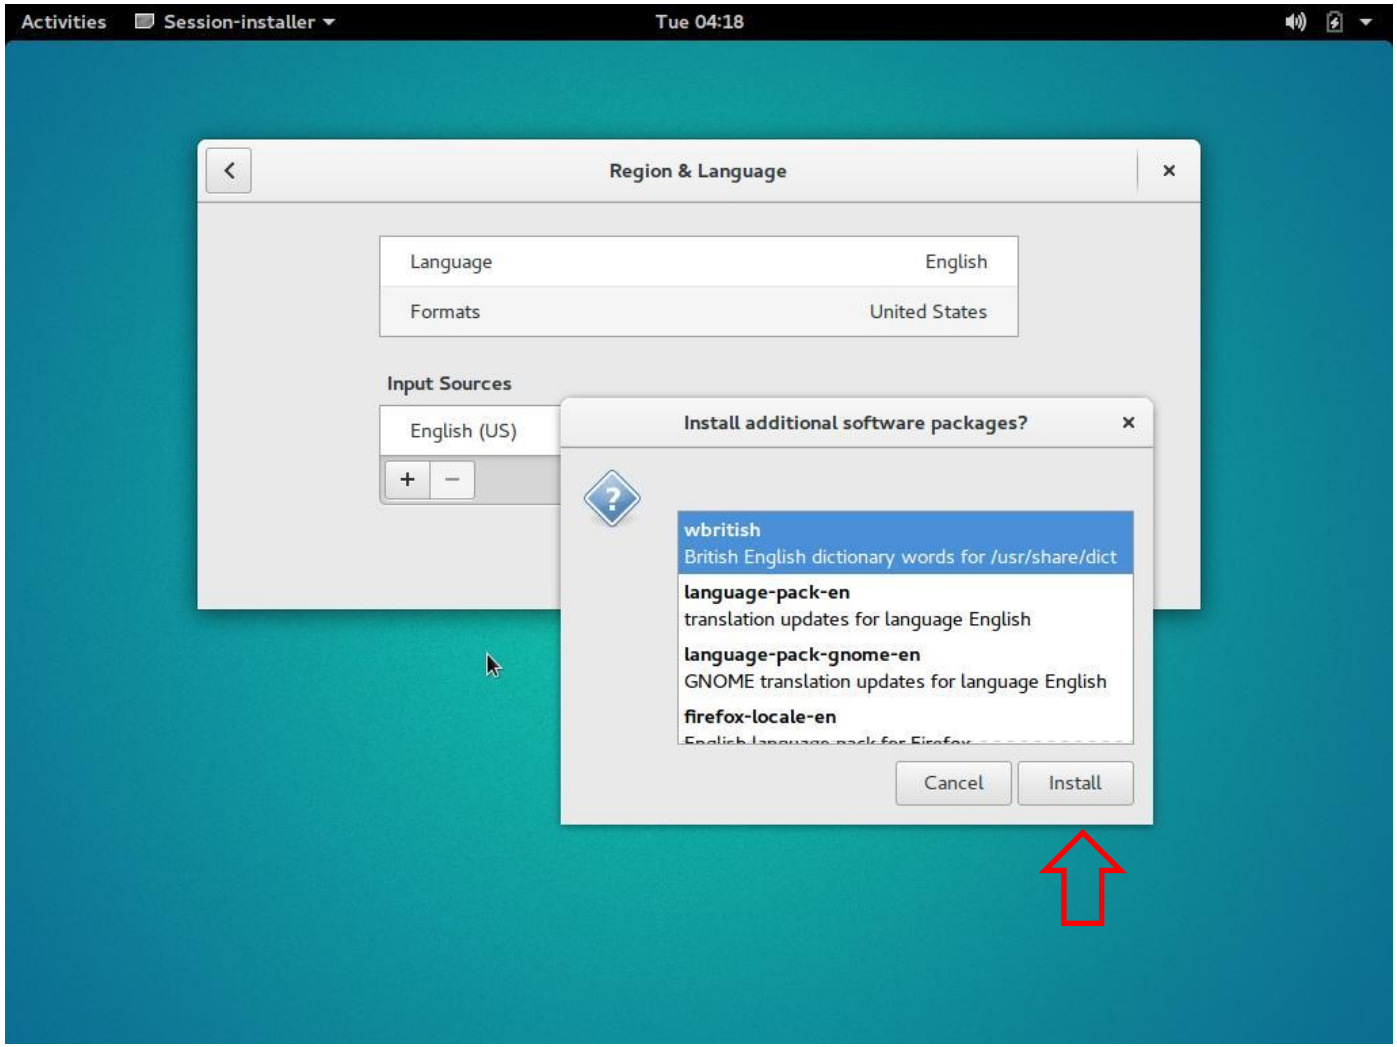


3) Select keyboard

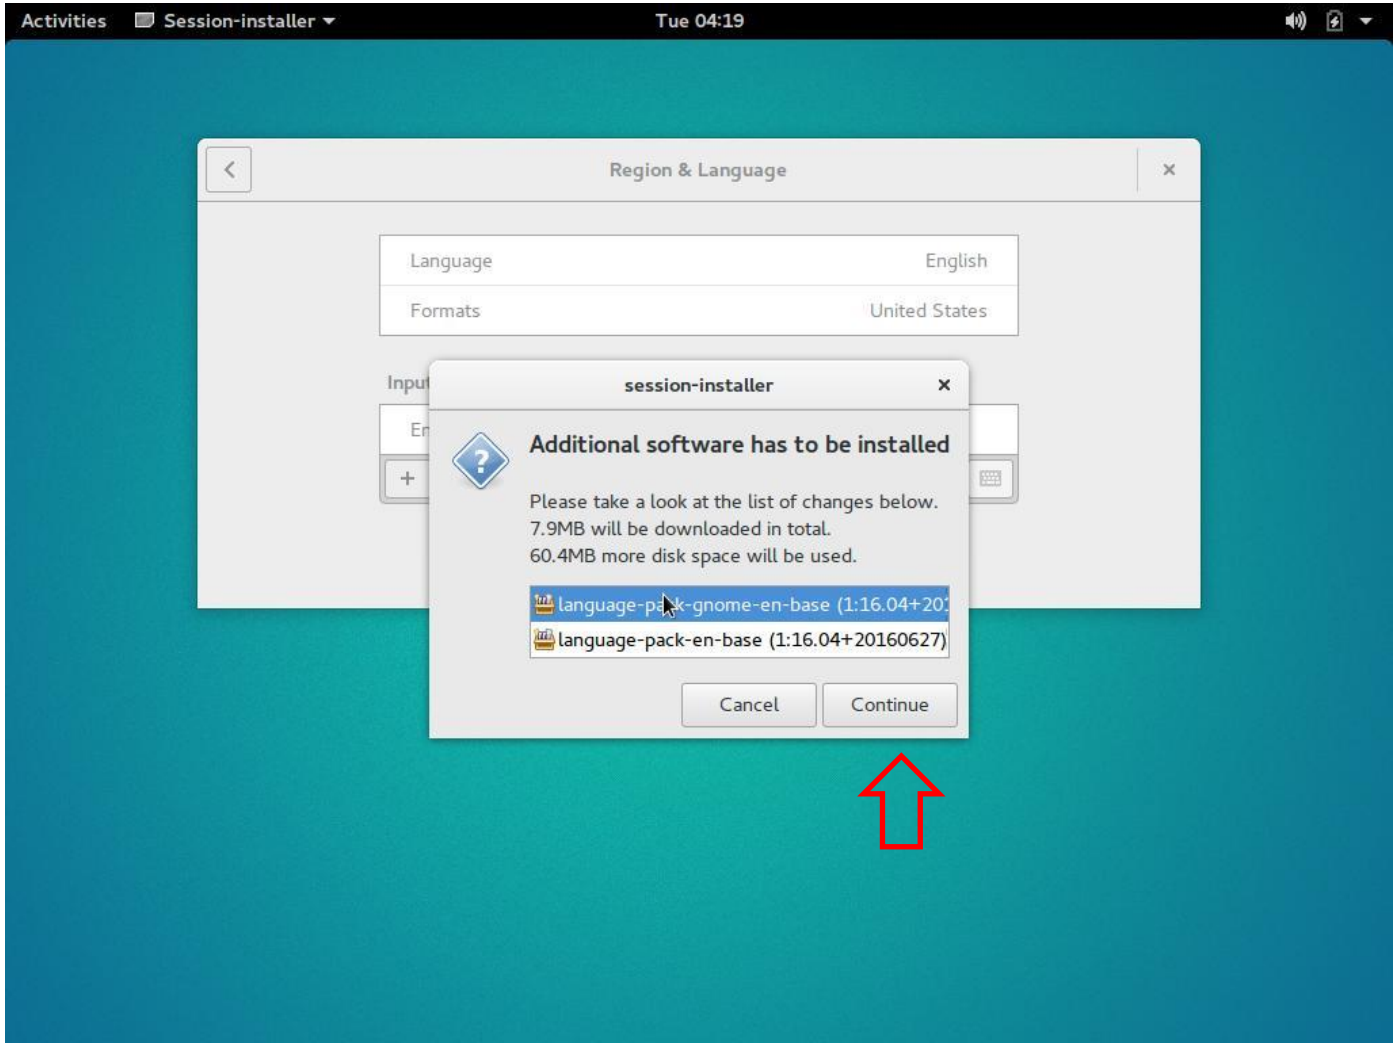
Select the input sources



Install additional packages



Confirm the installation



Type as a password: password
